

Writing

- Write a story based in a school in any historical period, or it could be set in different times through history.
- Create a play script – whatever theme you like!
- Create a poem about an event between January and March.
- Write a biography for a person of your choice.
- Create a poster with a persuasive strapline.

Outdoors

- Create an outdoor shelter – size is up to you!
- Go welly wandering - Running around in the rain might seem crazy when you start, but you'll soon be splishing and splashing around like a fish.
- Take a friend on a nature adventure. Explore your secret wildlife hideouts together and make the great outdoors your new playground.

St Paul's CE School – Squirrel class Spring Term Home Learning Ideas

**They do not need to be 'handed in' formally, but
please do share your efforts with Miss Abrey if you
would like to**

Creativity

- Create a landscape in a box.
- Create a landscape picture using collage.
- Use a computer and editing software to edit some pictures.
- Use digital technology to create a piece of digital art.
- Create a model house in a model landscape.
- Create a song for springtime.
- Create some food at home – sweet, savoury you choose!

History and Geography

- Plot a timeline of different periods in history and what education was like in that time.
- Create a poster about education in a time period of your choice.
- If you have to choose a historical period to go to school in, which would you choose and why?
- Label a globe with Equator, Northern Hemisphere, Southern Hemisphere, the Tropics of Cancer and Capricorn, Arctic and Antarctic Circle.
- Find different views about an environmental issue and present the different views.
- Suggest different ways a locality could be changed and improved

Science

- Find materials at home that are solid, liquid and gases and try to describe their properties (what does it feel like/ look like, can you squash it? Can you pour it?) Present your findings in any way you like.
- Think about more change of state investigations and explain what happens.
- Create a water cycle experiment, take photos of the different stages and present them in a power point or on a poster.
- Make a 3D model of the water cycle.

Religious Education

- Research a faith celebration that happens between January and March. Are they similar? Why might that be?

French

Practise your French from the selection of resources on the school's website. Share your achievement with your class in any way you like.
