

English

In English we will be using 'The Invention of Hugo Cabret', and 'Windrush Child', 'Peace on Earth' and 'The Last Bear' to support our learning in fiction and non-fiction writing. We will be writing a biography, a persuasive pitch to the Council, poems and a newspaper report. Our reading lessons will continue and will link with our topics this term, where possible.

French

In French, we will be looking at 'Playing and enjoying sport' and 'This is me, hobbies and fun'. In our French lessons, the children will be focusing on oral and written work.

Art/DT

In art, we will be looking at Activism and looking at the work of 3 different artists. We will then be using the skills of printing, collage and drawing.

Also in DT, we will be looking at the Digital World: Navigating the world which will involve us designing and programming a navigation tool to produce a multifunctional device.

PE

First Half term: Gymnastics & Volleyball
Second Half term: Fitness & Dodgeball

Geography

Through the use of learning questions, we will give extended descriptions of the physical features of different places around the world and describe differences and similarities in relation to physical features.

We will then look at sustainable development and explain how human activity has caused an environment to change. We will learn about grid references and symbols on OS maps.

Year 6

Crime and Punishment The Environment

Science

Our topics in science are 'Animals, including humans' and 'Living things and their habitats'. The children will look at the circulatory system, heart and blood vessels. The children will identify the kingdoms of life and classify living things within those kingdoms. The children will be introduced to the Linnean system of classification.

Music

Learning to play and develop skills with the recorder

Computing

Using Scratch, we will be looking at variables. We will improve games and design and create our own. Then after half term look at spreadsheets. In this, we will be looking at entering data in spreadsheets and then using formulae.

Maths

We will be focusing on ratio, decimals and fractions, decimals and percentages. From this, we will then go on to algebra; perimeter, area and volume and finally end with statistics. There will be, of course, the chance to practise SAT paper questions too.

RE

We will be learning about Humanism: the journey of life and death. Then, we will look at Sikhism: How do Sikhs put their beliefs about equity into practise?
