

Homework ideas

Rabbit Class

Spring term

Holidays

Create a picture of your ideal holiday.

Choose a holiday destination; create a helpful fact sheet about your chosen place that a holiday maker would find helpful.

Write a story about an adventure that happens whilst the characters are on holiday.

If you could only pack ten items, what would be on your list?

Maths

Find objects within your home that could be arranged in arrays (cutlery for example).

Measure things in your bedroom using both standard and non-standard measures.

Measure the height, arm span, hand span, foot length, head circumference of family members.

Extreme Earth

Write a story of a journey along a river or up a mountain.

Research a particular volcano.

Find out about the course of the River Cam from source to mouth - find all the different names that the river has.

Visit the geology museum;

French

Draw an imaginary animal and colour it in. Label its colours in French. Use a speech bubble to make them say their names (je m'appelle...).

Make a poster about your favourite animals and label them in French. You can use a dictionary to look up their names.

Science

To support our scientific exploration into rock and soil this term you could ask your children to compare the stones they find in local parks, on day trips to the beach or while on local nature walks. Visit the Sedgwick Museum to look at Fossils, explore articles on the Cambridge University Earth Sciences website www.esc.cam.ac.uk, and watch, BBC i-Player, 'A Perfect Planet' Series 1: Volcanoes. Or even conduct a soil study in the garden, looking out for; *peat soil, clay soil, sandy soil, silt soil, loam soil or chalky soil*. If children have a rock/fossil collection at home and want to bring them in to show the class, please only do this on FRIDAYS! Thank you.

The Empty Box

You can do anything you like: a presentation or poster on something that interests you; write about something you have done outside school. The possibilities are endless...
